

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring longevity.
- **6 mm Length:** Compact size for versatile application in tight spaces.
- **12.04 mm Outside Diameter:** Fits standard housings for easy installation.
- **8.98 mm Shaft Diameter:** Compatible with common shaft sizes for seamless operation.

RS PRO 6 mm Sintered Bronze Plain Bearing

RS Stock No: 528-266

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring smooth rotational or sliding motion. Made from sintered bronze, it offers excellent durability and resistance to wear, making it ideal for high-load environments. The compact design ensures easy integration into various mechanical systems.
