

## FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long-lasting performance.
- **5/8 in Length:** Suitable for a variety of applications, offering flexibility in design.
- **0.56 in Outside Diameter:** Allows for easy fitting into standard housings, simplifying installation.
- **0.43 in Shaft Diameter Compatibility:** Ensures a secure fit with common shaft sizes, enhancing stability.
- **Low Friction:** Reduces energy loss and heat generation, improving efficiency.
- **Self-Lubricating:** Minimises maintenance requirements, saving time and costs.

## RS PRO 5/8 in Plain Bearing, Sintered Bronze

RS Stock No: 528-102

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical applications. Made from sintered bronze, it offers excellent durability and reduced friction, making it ideal for supporting rotating or sliding shafts. The compact design ensures easy integration into existing systems.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.43 in

## Mechanical Specifications

Length	5/8 in
Material	Sintered Bronze
Outside Diameter	0.56 in
