RS PRO ESD Articulated Keyboard Shelf

RS Stock No.: 0687753

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

ESD ARTICULATED KEYBOARD SHELF

The keyboard shelf on a swing arm for ESD modular tables is an advanced accessory that combines functionality and convenience, providing excellent support while working at a computer. The shelf is made from 1.5 mm thick sheet metal, ensuring durability and robustness. With a load capacity of 5 kg, it offers safe and stable support for the keyboard. The adjustable swing arm allows for precise positioning of the keyboard shelf to meet the user's individual needs. This innovative solution enables optimal adjustment of the shelf's tilt angle, contributing to comfortable and ergonomic work. The adjustment feature facilitates better workspace organization, helps avoid uncomfortable positions, and minimizes the risk of ailments associated with prolonged computer use.

The keyboard shelf allows for effective use of available workspace while providing easy access to the keyboard. The modular table surface remains free of unnecessary items, which improves workstation organization and reduces the risk of discomfort from extended computer use.

Accessories compatible with L & H Type workbenches 1200/1500/1800/2000
