

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and durability, ensuring long service life.
- **58.09 mm Outside Diameter:** Suitable for a wide range of shaft sizes, providing versatility in application.
- **49.97 mm Shaft Diameter Compatibility:** Ensures a precise fit for optimal performance and reduced vibration.
- **35 mm Length:** Compact design allows for easy integration into existing systems.
- **Self-Lubricating Properties:** Reduces maintenance requirements and enhances operational efficiency.

RS PRO Sintered Bronze Plain Bearing, 58.09 mm OD

RS Stock No: 518-228

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

Product Description

This RS PRO sintered bronze plain bearing is designed for reliable performance in various industrial applications. It provides smooth operation and reduces friction between moving parts, making it ideal for machinery and equipment requiring efficient motion control.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	49.97 mm

Mechanical Specifications

Length	35 mm
Material	Sintered Bronze
Outside Diameter	58.09 mm
