

PCI Multi I/O Controller Card- 2 x DB9 Serial+1 x Parallel

PART NUMBER : 920320

TECHNICAL SPECIFICATIONS	
2-port RS232 serial + 1 parallel port combo PC host Features Plug and Play - Automatically Selects IRQ and I/O Address Supports PCI IRQ Sharing Specifications	

General

PCI 32-Bit 33MHz Interface

Compliant with PCI Specification Revision 2.1

Supports PCI Bus-Master Access

Fully Plug & Play compatible

Driver supported : MS Windows 98SE/ME/2000/XP/NT4.0/Server 2003/XP 64-bit/Vista, Linux, DOS

Serial Interface

Fully compliant with 16C550 UART standards [16-Byte Transmit-Receive FIFO]

Up to 1MBytes/Sec Fast Data Rate

2 x Pin header serial port connector

Parallel Interface

SPP, PS2, EPP, ECP Compatible IEEE 1284 Printer Port

Up to 1.5MBytes/Sec Fast data rates

Built-in 16-Byte FIFO

1 x DB25 parallel port connector
