absorbent

WYPALL*
BRAND

WYPALL* Colour Coded Wipers

The versatile wiper for effective and hygienic cleaning

WYPALL* Colour Coded Wipers are:

- Ideal for soaking up spills, absorbing up to 5 times their own weight
- Able to be easily rinsed clean
- Available in different colours for task segregation

WYPALL* Colour Coded Wipers are ideal for use in the following environments:

- Food processing
- Food preparation
- Healthcare
- Workshops
- Customer service areas (eg supermarkets)

All-round high performance

In busy industrial environments you need a wiper that can do the job quickly and efficiently. WYPALL* Colour Coded Wipers absorb more oil and water than a waste rag.

Versatile and effective

The unique pattern and weave ensure these wipers have the durability to be rinsed out and re-used. This makes them ideal for use in food preparation and processing, and versatile enough for general cleaning.

Cost management

Kimberly-Clark Professional offers a range of dispensers for roll products that will fit in a cleaning cupboard or kitchen area. The lockable dispensers will help reduce pilferage and minimise overuse, as wipers are dispensed one at a time.

Better for food hygiene

Kimberly-Clark Professional understand how important food safety is to your business. That's why the WYPALL* Colour Coded Wiper system has been designed with your needs in mind.

The full range of colours makes it easy to maintain a hygienic cleaning system by choosing specific colours for specific tasks.

Our brand has changed

Was	Now
	
<p>WYPALL* Colour Coded Wipers are now 16% thicker and 22% more absorbent for improved performance[^].</p>	

Example of a colour coded cleaning system

Red for toilets & bathrooms

Blue for general cleaning

Green for kitchen & food preparation

White for operating theatres

Yellow for infectious & isolation areas
