FOR ELECTROMEN PRODUCTS

FEATURES

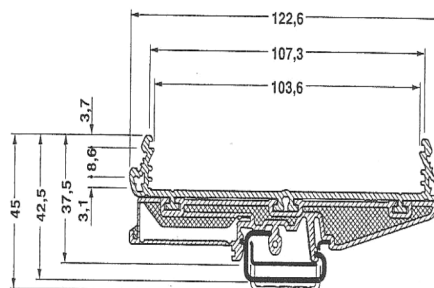

- Ready made
- Right size for each product
- Fits to 35 mm DIN-rail and C-rail
- Fast installation to rail
- Easy access to adjustments
- Easy access to connectors
- Two widths 72 mm and 108 mm

Electromen keeps also a stock of ready made rail bases for DC-motor drivers, controllers and speed regulators. Most of the Electromen stock products which don't have their own housing has been designed to fit into a rail housing. With the rail base these products can be installed into control cabinets or wall enclosures that are commonly used in industry and process automation.
