

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **6 mm Length:** Suitable for compact installations, saving space without compromising performance.
- **5.03 mm Outside Diameter:** Ensures a precise fit in compatible housings, enhancing stability.
- **2.99 mm Shaft Diameter Compatibility:** Designed for optimal performance with standard shaft sizes, ensuring smooth operation.

RS PRO 6 mm Sintered Bronze Plain Bearing

RS Stock No: 528-240

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is engineered from high-quality sintered bronze, offering reliable performance in various industrial applications. Designed for use with a 2.99 mm shaft diameter, it ensures smooth operation and reduced friction, enhancing the longevity of machinery components.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	2.99 mm

Mechanical Specifications

Length	6 mm
Material	Sintered Bronze
Outside Diameter	5.03 mm
