DESCRIPTION

CRH315L 60 T L.P. HYDROPNEUMATIC JACK WITH CUP 160 MM

Oleo-pneumatic jack for all types of heavy vehicles, operated by an oleo-pneumatic pump. Comes complete with cup and adaptor. A long-bodied model with a wide head enabling it to lift from 18 to 60 tonnes over a height of 335 mm. The piston retracts automatically and the double lowering valve ensures a constant, controlled speed with the load, although the speed is increased when the load is empty. These valves guarantee a perfect hold under load, even in the event of accidental rupture of any air or oil tube. It is made from special materials that guarantee operation, quality and resistance to breakage even in the most extreme situations. It complies with MACHINES DIRECTIVE 98/37/EC and is approved in accordance with EUROPEAN REGULATION EN 1494.

Supply pressure: 8 > 10 bar

Operating temperature : -20°C to +50°C

Air consumption : 400 L / min

Pneumatic installation hose: Rilsan diameter 6x4 mm

Compatible oil: ATF Dexron IID
