DESCRIPTION

SOCKET 1/2" HEXAGON INSULATED 1000 VOLT

Manual sockets designed for use with a standard or mechanical-locking ratchet wrench. Long sockets specially suited for places that are difficult to access such as wells and long threads. Made of Chrome Vanadium steel. The socket has 4 ogive-type housings inside the female square, offering an efficient and secure place for the ratchet's crimped ball, thus ensuring reliable assembly fastening (up to 500 Newtons pull-out resistance). Presence of a collar to provide optimum electrical protection during use with a ratchet or an extension.

SPECIFIC DATA

Designation	SOCKET 1/2" HEXAGON 13 MM INSULATED 1000 VOLT
Sales reference	ZSH-13
