

FEATURES

- **Sintered Bronze Material:** Offers high wear resistance and durability for extended service life
- **Compact Design:** Fits easily into tight spaces with an outside diameter of 0.87 in
- **Optimised for 0.62 in Shaft Diameter:** Ensures a precise fit for enhanced performance
- **Low Maintenance:** Requires minimal upkeep due to its self-lubricating properties

RS PRO 1/2 in Plain Bearing, Sintered Bronze

RS Stock No: 528-112

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical systems. Made from sintered bronze, it provides excellent wear resistance and durability, making it ideal for applications requiring reliable performance and low maintenance. The bearing's compact size allows for easy integration into existing setups.
