

This Stanley 1-97-514 is a good all round robust strong 24-Inch plastic toolbox that will ensure safe and dry storage for tools. The 1-97-514 toolbox has tapered protection corners / stability feet, this adds for better stability, grip and a good safety feature. Constructed of strong weatherproof plastic for extra strength, the toolbox has clear storage compartments on the top lid with compartment trays with movable dividers that can be moved around to suit the users storage requirements. This is combined within the toolbox and is removable, allowing for extra storage capacity.

The portable tote tray is designed to carry tools and small parts, yet enables large tool storage inside the toolbox.

The tough ergonomic soft-grip handle allows heavy loads to be carried with ease and comfort and two large metal rust proof latches will secure closing.

Dimensions: 610 x 323 x 251mm.
