## Reinforced wear zones to assist when handling materials

PRIMARY INDUSTRIES

IDEAL APPLICATIONS

- Residential and DIY masonry
- Heavy material handling
- Demolition and roofing
- Hand and power tool usage
- Car/vehicule maintenance

## DESCRIPTION

- Ribbed back of hand offers significant impact protection whilst delivering dexterity to the user
- Adjustable Velcro® closure allows for an adjustable and comfortable fit
- Terry cloth thumb delivers sweat management for high exertion tasks
- Premium deerskin palm increases wearability and comfort
- Reinforced wear zones on palm and fingertips assist with grip when handling materials and make for an ideal power tool glove

CATEGORY II

\*Ansell Projex Series™ gloves are high performance and multi-purpose, providing dependable protection, quality design and exceptional comfort for every job.
