

1. OUTSTANDING FEATURES

JELTONET PLUS is a special mixture of solvents designed for the cleaning of the electrical and electronic contacts; it makes it possible to avoid flashing. It restores the permittivities by removing all the causes of resistivity. It has a very weak surface tension, enabling to reach without difficulty treated surface. It destroys oxides in microporosity. It releases all kinds of assemblies, protects from corrosion and ensures a lubrication. It is without danger on markings or plastics.

2. TYPICAL APPLICATIONS

JELTONET PLUS is ideal for the cleaning of :

- Electronic sets,
- Relay, contacts with the air, contacts slipping,
- Electric cupboards,
- Cursors, connectives, switches, components,
- Electric contacts...

3. DIRECTIONS FOR USE

Well shake the aerosol. Place the capillary tube on the diffuser. Vaporize by brief and repeated pressures on the surface. Let act. Renew the operation if necessary.

Wait for some minutes before switching the equipment on after use.

Caution: Do not pulverize JELTONET PLUS while the equipment is switched on.

4. PHYSICAL AND CHEMICAL PROPERTIES

Active Ingredient :

- Appearance : Slightly amber clear liquid
- Smell : Of solvents
- Volume mass @ 20°C : 0.73 g/cm³
- Flammable

5. USAGE INSTRUCTIONS

Pressurized container. Consult the safety data sheet. Do not smoke. Skin Irritant. Do not vaporize towards a flame or an incandescent body. Do not throw to the fire. Keep out of reach children. Do not inhale sprayers. Well ventilate after usage.

6. PACKAGING AND STORAGE

Reference 7311: 520 ml aerosol (12 aerosols per box).

To protect from sun and do not expose to temperatures exceeding 50°C. Keep away from any flame or source of sparks or of ignition. Do not drill or burn after usage. Store in a dry place and in a ventilated area. Store at a temperature over 5°C.
