PT Ribbed Connector Caps

October 2008

The Challenge

To supply protection caps for PT/M26482 connectors capable of being fitted in extreme weather conditions.

The ITT Solution ...

Full range of ribbed protection caps for all connector styles that provide a better grip when used with gloved hands than standard knurled finish versions.

Applications/Markets

- Fighting vehicles
- Military communications
- Commercial electronics
- Off-road vehicles

Product Features

- Available in olive drab green Cadmium and black/green Zinc Cobalt finish
- Caps made for panel mount, jam nut receptacles, and plug variants
- Numerous cord length and fixing rings
- Sizes 8 through 18 available through existing distribution partners
- Sizes 20 to 24 available upon request

Benefit to the Customer

- Easy grip, arctic coupling nut
- ¼ turn locking with audible click
- Will fit all M26482 style connectors/layouts
