Description:

The STANLEY Microtough™ 1/4" Ratchet with Sockets features a quick release two way ratchet with a 20-30% smaller pear shaped head for easier access in tight spaces. The fine tooth ratchet gives 5° angle of engagement, providing smoother operation and functions when access to fastener is restricted. The ratchet is finished off in fully polished chrome for added durability and rust resistance. The ergonomic bi-material grip handles provide added comfort and helps to reduce fatigue.
