RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

Multi-layer Adhesive Mats are low-profile mats made up of 30 easy-peel, numbered layers with an adhesive surface.

These mats are essential for cleanroom areas where particle contamination must be kept to a minimum. On, entering clean environments where you need to limit the transfer of dust and dirt from the bottom of your shoes, you simply walk over the tacky mat and the debris from the soles of the shoes clings to the surface, significantly reducing the amount of foot borne contamination entering the clean area.

Suitable for use in cleanrooms, laboratories and any other controlled environment.
