

FEATURES

- **Chisel tip shape:** Allows for precise soldering and effective heat transfer, ideal for detailed work.
- **0.8 mm tip width:** Provides accuracy in soldering small components, reducing the risk of damage.
- **9.5 mm tip length:** Ensures optimal reach and accessibility in tight spaces, improving efficiency.
- **0° tip angle:** Facilitates consistent contact with surfaces, enhancing soldering quality.
- **Compliance with ANSI-ESD S20.20:2021, REACH, RoHS:** Meets industry standards for safety and environmental protection, ensuring reliability and compliance.

RS PRO 0.8mm Chisel Soldering Iron Tip, 9.5mm Length

RS Stock No: 631-090

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO Soldering Iron Tip is designed for precision soldering tasks, providing excellent thermal transfer and durability. Ideal for use with the 0631071 Soldering Station, this chisel-shaped tip ensures efficient heat delivery and precise soldering, enhancing productivity and quality in electronic assembly.

General Specifications

For Use With	0631071 Soldering Station
Product Type	Soldering Iron Tip
Tip Angle	0 °
Tip Series	T80
Tip Shape	Chisel

Approvals

Standards/Approvals	ANSI-ESD S20.20:2021, REACH, RoHS
---------------------	-----------------------------------

Mechanical Specifications

Tip Length	9.5 mm
Tip Width	0.8 mm
