RS Pro Cable Pivot for Float Switch

Equipped with a special bracket, the tutor system can be easily fixed directly on pumps, or wall fixed, or on pipework for steering the floating switch in narrow or confined spaces to avoid the accidental fouling of other pipes, cables, walls and other obstacles.

Compared to the traditional cable locking system seen on pumps, the pivot system allows the full flexibility of up to only 4cm | Tutor engh from the fixed point, without any movement impairment.

- Constrains movement of the float to prevent fouling with other objects in the tank
- Cable lock feature
- Inert and non-hazardous in water
