

uvex

worker Hemd uvex suXXeed greencycle planet 88812

Product features

The uvex suXXeed greencycle planet is the first uvex workwear collection to be fully compostable. All the materials we use—buttons, yarns, fabrics and dyes—are certified according to the Cradle to Cradle™ principle and are 100% biodegradable. Including the packaging! This way, the material can be returned to nature and new raw materials can be produced. The natural cycle is closed and our planet Earth is sustainably protected.
