

Features

- Forged Carbon Steel Head: Induction hardened for strength and durability.
- Polished Hammer Faces: Ensures clean, precise impact for metalworking tasks.
- Dual-Ended Design: Flat face for striking; rounded pein for shaping and riveting.
- Varnished Ash Wood Handle: Provides ergonomic grip and shock absorption for comfort.
- Compact Dimensions: 295 mm length, lightweight 250 g head for precision work.

RS PRO Ball Pein Hammer with Wooden Handle, 295 mm Length, 250 g Head Weight

RS Stock No.: 0736559

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO Ball Pein Hammer is a professional-grade tool designed for industrial and craft applications. Its forged carbon steel head delivers reliable striking power, while the polished faces ensure smooth performance. The rounded pein end is ideal for shaping and riveting metal, and the varnished ash wood handle offers excellent grip and comfort during extended use.

Primary Use:

- *Metal shaping and forming*
- *Riveting and peening operations*
- *General striking tasks in workshops and industrial settings*

Applications Best Suited For:

- *Metalworking*
- *Automotive repair*
- *Boiler making*
- *Fabrication shops*

Used With:

- *Anvils*
- *Forming blocks*
- *Metal sheets and rivets*
- *Other hand tools for shaping and finishing*
