RS Pro Cast Iron Rod, 1000mm x 25mm OD

RS Stock No: **778-1686**

Product Details

RS Pro rod measuring 1000 mm x 25 mm OD, is made of cast iron, which is an useful cost-effective material ideal for engineering. This rod is suitable for copper or chrome plating and vitreous enamelling. The rod withstands hydraulic and pneumatic pressures and it absorbs heavy vibrational stresses due to high dampening capacity.

Features and Benefits

- Good machinability at high speeds
- Clean surface finish
- Suitable for copper or chrome plating and vitreous enamelling
- Consistent machinability improving tool life
- Withstands hydraulic and pneumatic pressures
- Absorbs heavy vibrational stresses due to high dampening capacity
- Cost and time efficient
- Physical and metallurgical controlled properties
- Close dimensional tolerances
- No static casting defects

ENGLISH

Specifications:

Form	Rod
Material	Cast Iron
Length	1000 mm
Outer Diameter	25 mm
Finish	Clean Surface
