Single Sided Foam Tape

RS Stock number [567-963](#)

Description:

EPDM = ethylene propylene diene monomer

Ideal for sealing, damping and cushioning

Fully synthetic foam made of EPDM rubber, therefore age resistant and chemically neutral against the most commonly used lacquers and plastics

Resistant to most caustic chemicals

Resistant against moisture, UV radiation and ozone

Specifications:

Adhesive Material:

Rubber

Application:

Cushioning, Damping, Sealing

Length:

10 m

Maximum Operating Temperature:

90 °C

Thickness:

3 mm

Width:

12 mm
