

VT151 ACTIVE

BLACK / WHITE SAFETY TRAINER

A designer trainer combining the latest thinking in safety and sports technology. Key features include a penetration resistant sole and safety toecap resistant to 200J. It incorporates a reinforced scuff toe for increased shoe life and a slip resistant sole. Lightweight and breathable and with a KPU sports technology upper it's the perfect blend of style and safety.

CE Specification

EN ISO 20345:2011 S1P SRC

Size

3 - 12 (36 - 47)

Upper

KPU sports technology upper. Lightweight and breathable. Webbing pull loop. Moulded around reinforced sports mesh. Suede leather toe scuff and heel scuff for increased abrasion resistance.

Lining

Padded colour. Breathable and moisture wicking to keep the foot cool and reduce the level of sweating.

Footbed

Full length shock absorbing footbed is contoured to support and cradle the foot.

Toecap

Steel toe cap.

Protective midsole

Composite midsole.

Sole

Dual density PU sole. Lightweight and shock absorbing/cushioning.
