# Data sheet LED Lamp MR16

UK

### MR16 LED spot bulb

#### UK

#### **Key Features**

- 5W LED lamp as 40W MR16 replacement
- · GU5.3 base
- · AC/DC 12V input voltage
- · Non-dimmable
- · Mercury free
- · 2 years guarantee

#### **Common Characteristics**<sup>1</sup>

Average lifetime: 25.000 h<sup>2</sup> Switching cycles (30s on, 30s off): 20.000 times Casing Material: Aluminum Starting time max.: < 0.5s Warm up time for 60% light: < 1s Power factor: N/A Mercury max.: 0.0mg Length: 56mm Diameter: 50mm Weight: 40g

#### **Characteristics Range**<sup>1</sup>

Input power: 5W Luminous flux: Φ450lm / Φ<sub>120°</sub>365lm (AC) Φ435lm / Φ<sub>120°</sub>355lm (DC)

	· · ·	
RS Article No.	Color temperature	
7869124	3000 K = Warm white	
7869128	4000 K = Cool white	
7869137	6500 K = Day white	
Beam angle: 120 degree		

CRI: ≥ 80

#### <sup>1</sup>Typical values.

All the technical parameters apply to the entire lamp. In view of the complex manufacturing process for light emitting diodes, the typical values given above for the technical LED parameters are merely statistical values that do not necessarily correspond to the actual technical parameters of an individual product; individual products may vary from the typical values.

<sup>2</sup> The lifetime is estimated at room temperature(25 C), free air burning, base up burning position and at rated voltage. To achieve a full lifetime a good heat exchange for the electronic components is required.

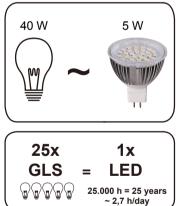

#### **Technical Drawing**

⊘50±0	.5mm

	E610 Emm	11111C.0±0C

#### Lamp Conformity

2004/108/EC Electromagnetic compatiblity(EMC) EN55015/A2:2009 Limits and methods of measurement of radio disturbance EN61547:2009 Electromagnetic compatiblity immunity requirements 2011/65/EU Restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS II)

#### Equivalent

#### **Proper Use**

Suitable for indoor use. For outdoor applications and operation in damp locations special approved fixture are required. Operating temperature range between -15 °C and 40 °C.

#### Application

Household luminaires Hotels Hospitals Office space

#### Caution

Please take the time to read this installation guide. The guide contains important information and notes regarding the installation and operation.

#### DISCLAIMER:

We disclaims liability for any direct, indirect or incidental damages in case of installation performed either not according to this guide or not performed by a professional electrician.

#### Safety instruction

Always switch off the power supply before replacing. Only to apply in dry indoor usage and environments,outdoor applications requires an IP rated fixtures. Do not change the structure or an components of the LED lamp to ensure safety. Please read the installation instruction very carefully and follow the wiring instructions to ensure safety.

RS, Professionally Approved Products, gives you professional quality parts across all products categories. Our range has been testified by engineers as giving comparable quality to that of the leading brands without paying a premium price.
