

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **40 mm Length:** Suitable for a wide range of applications, offering flexibility in design.
- **63.09 mm Outside Diameter:** Ensures compatibility with standard housings, facilitating easy installation.
- **54.97 mm Shaft Diameter:** Designed to fit securely on shafts, minimizing vibration and noise.

RS PRO 40 mm Sintered Bronze Plain Bearing

RS Stock No: 518-235

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

Product Description

This RS PRO sintered bronze plain bearing is designed for smooth and efficient operation in various mechanical applications. It is ideal for reducing friction between moving parts, ensuring longevity and reliability in machinery. The primary benefit of this bearing is its ability to operate effectively under high loads and varying temperatures.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	54.97 mm

Mechanical Specifications

Length	40 mm
Material	Sintered Bronze
Outside Diameter	63.09 mm
