

## DEWALT XR FLEXVOLT 125mm X 1.1mm Metal Cutting Disc

DT99582-QZ

### Features:

- Lasts up to 4X longer life versus traditional aluminium oxide discs
- Constructed from ceramic high density abrasive grains
- Provides up to 35% additional runtime for enhanced durability
- 35% faster cuts saving you time and effort

### Description:

The DEWALT XR FLEXVOLT Metal Cutting Disc has been engineered for extreme repetitive heavy duty metal cutting. Constructed with professional high performance dense abrasive ceramic grains for a tough durable concentration, which lasts up to 4x longer than traditional aluminum oxide discs. The cutting disc also provides 35% additional runtime and faster cut, saving you time and effort. Ideal for cutting ferrous and non-ferrous metals, rebar, welds and surface preparation.

Specifications	
Diameter	125 mm
Thickness	1.1 mm
Bore Size	22.23 mm
Max Speed	12250 rpm
Abrasive Material	Ceramic
