Precision screw cutting gauge

RS Stock number 683-0709

Precision Screw Cutting Gauge

 A precision screw cutting gauge, a V-shaped tool with a 60-degree angle. It has a satin chrome finish and is marked with 0.5mm and 1mm graduations on both sides. The tool is used for checking 60-degree tool points and setting screw thread cutting tools. It is manufactured from tempered steel and has a satin chrome finish. The working surfaces are ground for accuracy. Both sides are marked with 0.5 and 1mm graduations. The tool is marked with "AMBLER 60° TEMPERED MADE IN USA".	<p>Used for checking 60 degree tool points and setting screw thread cutting tools Manufactured from tempered steel Satin chrome finish Working surfaces are ground for accuracy Both sides marked with 0.5 and 1mm graduations</p>
