

## TRIPOD-MOUNTABLE • FITS ANY KESTREL HAND-HELD WEATHER METER

- **Quick and easy to assemble**
- **Easily adjustable**
- **Folds down for compact storage**
- **Rugged construction**
- **Fits any standard tripod**
- **Rubber jaws for secure but non-damaging grip**
- **Suitable for other hand-held instruments including GPS's, gas monitors and sound meters**
- **Enables consistent monitoring of environmental conditions**

### DESCRIPTION

Designed to fit a standard tripod, the Tripod Clamp will securely hold a Kestrel hand-held weather meter or any other small measuring device.

The Tripod Clamp has rubber jaw pads to grip the instrument securely without damage.

When not in use, the clamp folds down to a compact size.

Combined with a tripod, the clamp enables a Kestrel to be held steady at a fixed elevation to allow consistent monitoring of environmental conditions.

### SPECIFICATION

#### Physical

##### Dimensions:

- Width: 20 mm
- Length x height:
  - Extended (in use): 102 (max) x 72 mm
