

FEATURES

- **Sintered Bronze Material:** Offers excellent durability and resistance to wear, extending the life of the bearing.
- **2-Inch Length:** Provides ample surface area for effective load distribution, enhancing stability.
- **1-Inch Outer Diameter:** Suitable for a range of housings, ensuring compatibility with existing systems.
- **0.74-Inch Shaft Diameter:** Designed to fit standard shaft sizes, simplifying installation.

RS PRO 2 in Sintered Bronze Plain Bearing, 1 in Outer Diameter

RS Stock No: 558-522

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed to provide reliable performance in various industrial applications. With a 2-inch length and 1-inch outer diameter, it is ideal for supporting rotational or sliding motion in machinery, ensuring smooth operation and reducing wear.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.74 in

Mechanical Specifications

Length	2 in
Material	Sintered Bronze
Outside Diameter	1 in
