# Panel Screw Kit

RS Stock number 0606844

### Features

#### Profile, Slotted Rail Kit

A support rail kit for equipment mounting in enclosures or for fixing to a flat surface. Can be built into a frame by using vertical and horizontal 90° angle brackets, available separately. Commonly used as a vertical support rail for horizontally mounted DIN rail, it fits on to the corner studs in enclosures. Manufactured from 1.5 mm cold rolled steel, zinc plated and passivated. The kit contains:

- 4´1 m lengths of support rail
- 1 pack of 25 caged nuts, M6 N-type
- 1 'panel screw kit' (25 steel pan head screws, M6´12 mm and washers)
