

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **1 in Length:** Compact size suitable for tight spaces while maintaining performance.
- **1.63 in Outside Diameter:** Ensures compatibility with a wide range of housings.
- **1.24 in Shaft Diameter:** Designed to fit standard shaft sizes, enhancing versatility.

**RS PRO 1 in Sintered Bronze Plain Bearing,
1.63 in OD**

RS Stock No: 558-548

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. It offers excellent performance in reducing friction between moving parts, making it ideal for various industrial uses. The primary benefit of this bearing is its durability and ability to withstand high loads.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.24 in

Mechanical Specifications

Length	1 in
Material	Sintered Bronze
Outside Diameter	1.63 in
