

Easily pinpoints bearing and machine noise

## SKF Electronic Stethoscope TMST 3

The SKF TMST 3 is a high quality instrument enabling the determination of troublesome machine parts by the detection of machine noises. TMST 3 includes a headset, two different length probes (70 and 220 mm) and a pre-recorded audio CD demonstrating the most common encountered troublesome machine noises, all supplied complete in a sturdy carrying case.

- User friendly and easy to operate, no special training required.
- Lightweight ergonomic design makes it easy to operate with one hand.
- Excellent sound quality helps to reliably identify the possible cause of the noise.
- Excellent quality headset for optimum sound quality even in very high-noise environments.
- Pre-recorded demonstration CD and output for analogue recording help facilitate analysis and comparison.
- Supplied with two probes, 70 and 220 mm (2.8 and 8.7 in.) long.
- Adjustable digital volume control up to 32 levels to reach desired volume.

## Technical data

<b>Designation</b>	<b>TMST 3</b>
<b>Frequency range</b>	30 Hz–15 kHz
<b>Operating temperature</b>	–10 to +45 °C (14 to 113 °F)
<b>Output volume</b>	Adjustable in 32 levels
<b>Led indicator</b>	Power on Sound volume Battery low
<b>Maximum recorder output</b>	250 mV
<b>Headset</b>	48 ohm (with ear defender)
<b>Auto switch off</b>	Yes, after 2 min.

<b>Battery</b>	4 × AAA Alkaline type IEC LR03 (included)
<b>Battery lifetime</b>	30 hours (continuous use)
<b>Dimensions handset</b>	220 × 40 × 40 mm (8.6 × 1.6 × 1.6 in.)
<b>Probe length</b>	70 and 220 mm (2.8 and 8.7 in.)
<b>Case dimensions</b>	360 × 110 × 260 mm (14.2 × 4.3 × 10.2 in.)
<b>Weight</b>	
Total weight	1 610 g (3.5 lb)
Instrument	162 g (0.35 lb)
Headset	250 g (0.55 lb)
