

Datasheet

UK Earth Bonding Plug, 2x4MM Sockets, 1x10MM Stud RS-298-3890

Front

Features:

- Made of yellow, impact-resistant ABS
- 1 x 10MM snap stud, 2 x 4MM banana jack sockets
 - 1 megohm 1/2 Watt resistor built into the stud connector
- Provide safe and low-cost path to electrical mains earth
- Fits UK 13A socket
- For use in the factory and in the field
- Made in the United Kingdom

Back

Property	Value
Colour	Yellow
Size of plug casing	51MM x 49MM x 31MM
Weight	36g
Connector to earth pin resistance	0.8 - 1.2 megohms
Connector to connector resistance	approx 2 megohms

The Earth Bonding Point (EBP) plug is designed to provide a common ground point for grounding using protective earth in an ESD protected area (EPA) in accordance with EN 61340-5-1.

*Unless otherwise noted, tolerance $\pm 10\%$
