In your **food processing** environment a **hygienic, healthy** and **productive** work environment is paramount - both for the food as the final product and for the people who produce it.

Protecting your people from the process and the process from all forms of contamination are daily concerns within your operation.

When you get this right, everyone benefits.

! FACTS

"Machine **downtime cost** the European Food Manufacturing industry a total of **€32.2 billion** in lost productivity".¹

"**Food recalls** cost in Europe over **€190 million per year.**"²

"The food processing industry has one of the highest injury rates in the manufacturing sector, with **140,000 incidents** across Europe resulting in **3 or more days off work.**"³

"In 2012 **33% of BRC** audits in Europe found hygiene non-conformities."⁴

"**Maintenance & cleaning** are two of the workplace activities that **affect Health and Safety the most** if safe correct procedures are not followed."

The requirements and challenges in Food Processing are manifold: employee and customer satisfaction go hand-in-hand with hygiene and safety aspects, as well as improving profitability and productivity.

We at KIMBERLY-CLARK PROFESSIONAL* are aware of these challenges and have set ourselves the goal of providing you with the best possible assistance in this area.

1. Changeover.com 2. Stirlingreid
3. Eurostat 4. BRC food safety an global view

We have set our sights on the decisive factors that have to be dealt with in your daily business:

-  Health & Safety
-  Contamination control
-  Productivity
-  Employee Well-being
-  Efficiency
-  Social Responsibility

 In order to help you master the challenges you face, as well as to deal with everyday hazards, we have set up a **two-pronged solution** to provide you with exceptional workplaces:

The Efficient Workplace

Identifying unnecessary waste and hazards, providing the respective countermeasure.

In production areas, including production-related hygiene areas.

The Healthy Workplace Project*

Increasing employee well-being in order to reduce sickness levels.

In offices, meeting rooms, canteens, public areas, washrooms.

The Efficient Workplace

An entirely new way of supporting your continuous improvement efforts by analysing your processes. Even when you think you've optimised every process or rationalised your industrial supplies, it's likely there is still more that you could do:

How is it different?

It starts with a **"Waste & Hazard Walk"**, where we will visit your facility to see first-hand how your business operates with the aim to deliver measurable improvements by:

-  Reducing accidents such as falls and slips during Maintenance and Cleaning
-  Minimising likelihood of product recalls
-  Reducing product changeover time and inventory levels
-  Eliminating unnecessary worker motion

The Healthy Workplace Project*

80% of cold and flu virus infection risks amongst workers can be prevented with better hygiene. The Healthy Workplace Project* is a comprehensive wellness programme designed to enable health and prevent germs from spreading around your office.

Why does it matter?

By emphasising the importance of **'washing, wiping and sanitising'** on the job, the programme helps to:

-  Reduce absenteeism
-  Raise staff satisfaction
-  Raise productivity levels
-  Reduce the risk of bringing germs home to your family

Our solutions make your workplaces healthy and efficient

From production floor to office – when there is a need to protect people or processes, we've got the right solution and the right product for all your challenges:

Maintenance

For this critical task, count on quality PPE with advanced wiping solutions that help ensure precision, safety, and continuous operation.

Hygiene Station on Entry and on Site

Our easy-to-use dispensers help improve hygiene standards and prevent food contamination by encouraging hand washing.

Office

Our products show that your company cares about having a healthy, hygienic environment for employees and clients.

Cleaning production debris/spillages

We have the top products to prevent food contamination incidents, by ensuring your floors, conveyers and machinery are quickly and 100% effectively cleaned.

Cleaning during product changeovers

Efficient product changeover is critical to your productivity. Our products help reduce cross-contamination and speed up cleaning.

Deep cleaning

Meet even the most stringent food hygiene and safety standards with our wide range of superior deep cleaning solutions.

Soap & Hand Towels

SCOTT® MAX Blue Rolled Hand Towel 350m

Code: 6692

SCOTT® MAX Rolled Hand Towels and AQUARIUS® Rolled Hand Towel Dispenser with 25cm sheet length have been engineered to help avoid frustrating product run-outs in the washroom. Delivering 1400 sheets, blue AIRFLEX® fabric offers superior absorbency and strength with Food Contact certification and Ecolabel accreditation.

AQUARIUS* dispenser

Code: 6989

To help reduce contamination and the spread of germs in high traffic environments and increase hygiene compliance:
 ▶ delivers more sheets and more hand dries than other manual hand towel systems in the market*
 ▶ preferred by end users, the system is twice as easy to use as some other competitor systems*
 ▶ Superior dispensing performance tabbing up to 2.5 times less often*

*Results of Hall Test research conducted by Redshift Research Agency in 2014, Commotion House, Morley Road, Tonbridge, Kent, TN9 1RA

SCOTT® PERFORMANCE Hand Towels & AQUARIUS* Folded Hand Towel Dispenser

Code: 6660, 6945 (Dispenser)

SCOTT® PERFORMANCE Hand Towels are medium sized, blue, 1ply interfolded towels with a soft and comfy feel. Used with the AQUARIUS* dispenser to improve hygiene standards and to help control costs. This quick-fill contemporary design dispenser has no dirt or dust traps; and a unique patented overflow prevention device to prevent jamming and wastage.

SCOTT® Slimroll Hand Towels, blue, Slimroll Hand Towels XL, blue & AQUARIUS* Slimroll Hand Towel Dispenser

Codes: 6658, 6698 (XL), 6953 (Dispenser)

The SCOTT® SLIMROLL System puts high performance, high capacity rolled towels where they need to be, not just where they fit. Hand towels on high-capacity rolls that control how much tissue you take and help cut costs and waste.
 6698 - 6 x 190m rolls
 6658 - 6 x 165m rolls

KLEENEX® Gel Hand Sanitiser & Electronic Skin Care Dispenser

Code: 6383, 92147 (Dispenser)

This KLEENEX® Gel Hand Sanitiser in a high capacity format offers high product efficacy whilst being gentle to the skin. With an 80% ethanol formulation it is fully virucidal (EN14476) and meets EN Standards EN1500 and others. It offers good skin tolerance even with long term use and is free of cumulating long-term active ingredients, which might have an irritating or sensitizing effect on the skin.

KLEENEX® Frequent Use Hand Cleanser & AQUARIUS* Hand Cleanser Dispenser

Code: 6333, 6948 (Dispenser)

Colour and fragrance free liquid soap for gentle cleaning in hygienically sealed 1-litre cassettes that dispense up to 1,000 shots of soap. This system delivers up to twice as many washes per litre as conventional liquid soaps; keeping costs down for everyday use and reducing waste (cassettes shrink to save space when empty and are recyclable (when the pumps removed).

Wipers and Cloths

WYPALL* X80 Plus Quarterfold Cloths

Codes: 19127, 19139, 19154, 19164

Colour Coded wiper helps reduce cross-contamination
 ▶ High absorption and strength improves cleaning efficiency
 ▶ Reinforced resistance and scrubbing facilities thanks to the POWERPOCKET embossing

WYPALL* Quarterfold Dispenser

Code: 7969

▶ Multiple mounting options (wall, pole, table) so it can be placed exactly where needed
 ▶ Protects product integrity (made with shatter proof material easy to clean and with no dirt traps) to reduce contamination & waste
 ▶ Viewing window to help improve refill management
 ▶ Single sheet dispensing to help improve efficiency, reduce consumption & material waste

WYPALL* X90 Wiper blue, Large Roll and Brag-Box

Codes: 12889, 12891 (Brag-Box)

▶ Durable for repeated use. High absorption and strength for improved cleaning efficiency. Soft like a cloth
 ▶ Reduced contamination due to low lint feature
 ▶ Large Roll & portable format (Brag-Box) for use at point of cleaning, reduces motion waste
 ▶ Zero dye bleed due to polymer pigments; No glues, adhesives or binders

WYPALL* L30 Wipers Large Roll Blue 2 plies & Mobile Stand Wiper Dispenser

Codes: 7301, 6155 (Dispenser)

Large, perforated roll on mobile or mounted dispensing systems to help control use and reduce wastage; can be used for cleaning large spills and machinery components, yet soft enough for the face or hands.

WYPALL* L10 & L20 Roll Control Centerfeed Blue Wipers & AQUARIUS* Roll Control Dispenser grey

Codes: 7492 (L20), 7493 (L10), 7494 (L10), 7181 (Dispenser)

Centrefeed Roll Control wiper system in a quick-loading, easy-clean unit that dispenses individual wipers one at a time to reduce waste while maintaining hygiene, especially in busy food areas.

- Maintenance
- Cleaning production debris / spillages
- Cleaning during product changeover
- Deep cleaning
- Hygiene Station on Entry and on Site

Gloves & Hearing Protection (PPE)

(Cat I)

(Cat III)

(Cat III)

(Cat III)

(Cat III)

KLEENGUARD* G10 Arctic Blue Nitrile Gloves - 24cm Ambidextrous / Blue

Codes: 90095, 90096, 90097, 90098, 90099

PPE Category I protection for food processing and catering environments; provides a good grip; allows sensitive touch for handling small parts.

Available as powder-free, latex-free ambidextrous gloves, 0.06 thickness, with beaded cuff for added strength and textured fingertips for improved grip, in a wide size range - XS to XL providing a comfortable fit.

KLEENGUARD* G20 Atlantic Green Nitrile

Codes: 90090, 90091, 90092, 90093, 90094

PPE Category III (CE Complex) thin mil glove classified by EC Council Directive 89/686/EEC; only 0.06mm thickness to provide exceptional touch sensitivity, comfort and flexibility. It contains no natural rubber proteins, to avoid any risk of Type 1 allergies. Protective against a wide range of chemical splashes it offers excellent versatility and easy donning. Food contact approved with AQL 0.65 to reduce waste and increase protection, efficiency and productivity. Textured finger tips also provide excellent grip.

JACKSON SAFETY* G29 Solvent Glove

Codes: 49822, 49823, 49824, 49825, 49826, 49827

Made of two thin layers of neoprene and nitrile to avoid skin allergies, these ambidextrous longer lasting double chlorinated, powder-free gloves of 0.22mm thickness; help to maximise protection and offer also flexibility and elasticity. With a beaded cuff for ease of donning; textured fingertips to enhance grip; they are silicone free. They are antistatic according to EN 1149-3

JACKSON SAFETY* G80 Chemical Resistant Gloves - 33 cm Hand Specific Pairs / Green

Codes: 94445, 94446, 94447, 94448, 94449

Nitrile formulation gloves offering excellent chemical resistance and durability; contains no natural rubber latex, reducing the potential for Type 1 glove associated reactions; flock-lined for extra comfort and easy donning, AQL 0.65 to provide superior protection, more productivity and efficiency. Unlined, reducing the risk of lint contamination and with AQL 0.65 for pinholes to provide superior dexterity and chemical protection. EN 374-3:2003 : AKL ; EN 388:2003 : 2110

JACKSON SAFETY* G80 Nitrile Gauntlet

Codes: 25622, 25623, 25624, 25625

Nitrile formulation gauntlets offering excellent chemical resistance and durability. Contains no natural rubber latex, reducing the potential for Type 1 glove associated reactions. 0.55mm thickness offers increased chemical protection against various chemicals and longer length (46 cm) protects wrist and lower forearm. Unlined, reducing the risk of lint contamination and with AQL 0.65 for pinholes to provide superior protection, more productivity and efficiency. EN 374-3:2003 : AJK ; EN 388:2003 : 4101

JACKSON SAFETY* H20 Metal Detectable Corded

Code: 13822

Latex and silicone free reusable metal detectable ear plugs. Corded. Soft design to ensure comfort and conformity but also easier holding and donning. Each pair individually bagged in resealable bags to maximise productivity and efficiency. Ideal for medium-low noise environment. SNR 27
