

Features

- Dissolves rapidly
- Multiple application
- Prevents and reduces lime scale
- Increases life expectancy of machinery and plumbing

Note: Granulite salt granules are formed by crushing and sieving compacted sheets of food-grade pure dried vacuum salt.

Glacia granulite is a compacted salt product with granule sizes between 2 and 6mm.

RS PRO Granulated Salt for Water Softeners

RS Stock No.: 759-6592

RS PRO Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO water softener salt rapidly dissolves to produce premium quality brine for quick application and is manufactured from pure dried vacuum salt to ensure purity for soft water.

Application includes domestic, commercial and industrial (can also be used in dishwashers). Water softening salt can also be used to melt ice on those frozen winter mornings.
