

Features

- Light weight, durable and strong thermoplastic knob
- Zinc plated steel male thread
- Black knob
- Suitable for a wide range of industrial applications

RS PRO Thermoplastic Thumbscrew Knob, 15mm Diameter, M5x20mm Male Thread

RS Stock No.: 284-5597

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This thermoplastic taper knob is strong and durable, yet lightweight.

The taper knob is designed to push fit on shafts, levers, and wheels in an array of industries including manufacturing, packaging, construction, gym equipment, and many others.

The matt finish thermoplastic is strong and has exceptional resistance to heat and contaminants including oil and solvents.
