

## FEATURES

- **Sintered Bronze Material:** Provides high strength and excellent wear resistance, ensuring long-lasting performance.
- **10 mm Length:** Compact size for easy installation in tight spaces.
- **13.04 mm Outside Diameter:** Suitable for a variety of housing sizes, offering versatility in application.
- **9.98 mm Shaft Diameter:** Ensures a precise fit for optimal performance and reduced vibration.
- **Low-Friction Operation:** Enhances efficiency and reduces energy consumption in mechanical systems.

## RS PRO 10mm Sintered Bronze Plain Bearing

RS Stock No: 528-275

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for applications requiring smooth, low-friction movement. Made from sintered bronze, it offers excellent durability and wear resistance, making it ideal for both industrial and mechanical uses. The compact design ensures easy integration into various systems.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	9.98 mm

## Mechanical Specifications

Length	10 mm
Material	Sintered Bronze
Outside Diameter	13.04 mm
