Datasheet

Centre Pole Magnet RS For Use With Hall Effect Switch, Reed Proximity Switch, Reed Relay

RS Stock number 0260369

Features

Centre Hole Magnet

Centre hole ferrite ring magnet with a high resistance to de-magnetisation

Ideal for actuating totalising counter (stock no 260-375) at a distance of 15mm

Suitable for reed relays, reed proximity switches and hall effect IC switches

Other uses include its incorporation in various small magnetic assemblies such as separators and filters
20mm diameter, 10mm high
