

Features

- Free from ions and minerals, ensuring no residues are left on cleaned surfaces.
- Ideal for final rinse, acting as a finishing agent to remove any remaining residues from the initial cleaning stages.
- Safe for electronics, reducing the risk of damage caused by impurities, making it ideal for precision cleaning.

RS PRO Deionised Water

RS Stock No.: 0315458

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

This de-ionised water is used for the final rinsing and cleaning of electronic components and printed circuit boards after they have undergone a primary cleaning process. It effectively removes any residual contaminants and ensures a spotless, residue-free surface, making it an essential product for maintaining the quality and reliability of sensitive electronic assemblies. Its high-purity formulation makes it ideal for various precision cleaning applications, ensuring no mineral deposits or ionic contaminants are left behind.

General Specifications

Cleaner Type	Deionised Water
Package Type	Can
Package Size	5 L
Application	PCBs
Appearance	Clear, Colourless Liquid
