

EAN: 4013288237521
Part number: 05150160001
Article number: 9760

Size: 405x360x65 mm
Weight: 2073 g
Country of origin: CZ
Customs tariff number: 82054000

- Durable foam insert, each tool has its own place; two-coloured - missing tools will quickly be noticed; optimal fit for the best possible tool removal from the foam insert
- Tools made of stainless steel to prevent extraneous rust
- Zyklop 8001 A Mini bit ratchet (60 teeth, return angle 6°), drop-forged solid steel design; for 1/4" hex drive bits and with adapter for 1/4" sockets
- Screwdriver with Kraftform Plus handle for comfortable ergonomic screwdriving, avoiding blisters and calluses
- L-keys with holding function for hexagonal socket screws and Hex-Plus profile (prevents rounding of hexagonal socket screws)
- L-keys with holding function for TORX® screws
- Screwdrivers, L-keys and bits with Take it easy tool finder: colour coding and size stamping to find the required tool quickly
- Width x height x depth: without tools 344 x 30 x 392 mm, with tools 344 x 45 x 392 mm

Durable foam insert; two-coloured for quick identification of missing parts; suitable for the Tool Rebel roller cabinets; equipped with Wera stainless steel tools: 6 Kraftform screwdrivers (Phillips, TORX®, slotted), Bicycle Set 9 with Zyklop Mini bit ratchet and 9 bits (Phillips-head, TORX®, hexagonal socket; 25 mm long), L-key set (9-piece set) with holding function for hexagonal socket screws, L-key set (9-piece set) with holding function for TORX® screws.

Safe storage and quick overview

The tools sit securely in the foam thanks to precise contour cutouts, but are easy to remove. The carefully designed arrangement of the tools ensures space-saving storage and quick access to each tool.

Two-coloured foam insert

After removing the tool the light grey second foam becomes visible and therefore missing tools are quickly identified.

Screw stainless steel together with stainless steel!

Solution to the rust problem: screwdriving stainless steel together with stainless steel! Wera stainless steel tools are manufactured out of stainless steel so unsightly rust can be avoided.

Rapid screwdriving

High working speeds can be attained with the Zyklop Mini bit ratchet. The thumb wheel is important, enabling more rapid screwdriving, and the lever of the Zyklop Mini only needs to be used for the final tightening of the screw.

Prevents hand injuries

The outstanding design of the Kraftform handle that fits perfectly into the hand prevents hand injuries such as blisters and calluses.

L-keys with holding function for hexagon socket screws

The clamping of the screw is achieved by a flexible locking ball. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to secure the screw on the tool.

Holding function for recessed TORX® screws

The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile mean that TORX® screws made according to Camcar Innovations, Michigan, USA specifications are securely held on the tool!

Take it easy tool finder system

Screwdrivers, L-keys and bits with Take it easy tool finder: colour coding and size stamping to find the required tool quickly.
