RS Stock No.: 623-6390

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Introducing the RS PRO 39-piece socket set. This robust 1/4" square drive socket and bit set offers a diverse toolset for a range of jobs across both DIY and professional applications. The hardwearing and durable forged chrome vanadium steel construction ensures greater reliability and offers the addition of the 'Sure Drive' system to ensure solid grip that eliminates slip and rounding any fasteners, parts or fixings under high torque. The heat-treated sockets, bits and accessories give increased strength and wear resistance when being used over long periods of time and also when exposed to harsh working conditions. The set is supplied with a 45-tooth, gear to gear quick release 1/4" ratchet handle and 1/4" spinner handle, making this kit versatile and adaptable with the addition of the 2" (55mm) extension bar and 1/4" universal joint for almost any application.
