

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **5/8 in Length:** Suitable for compact installations, saving space without compromising performance.
- **0.62 in Outside Diameter:** Ensures compatibility with a wide range of housings, enhancing versatility.
- **0.49 in Shaft Diameter:** Designed for precise fitment, ensuring smooth operation and reduced vibration.
- **Plain Bearing Design:** Offers simplicity and reliability, ideal for applications where complex bearing systems are unnecessary.

RS PRO Sintered Bronze Plain Bearing, 5/8 in Length

RS Stock No: 528-108

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. Ideal for reducing friction between moving parts, it offers durability and performance in various industrial settings.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.49 in

Mechanical Specifications

Length	5/8 in
Material	Sintered Bronze
Outside Diameter	0.62 in
