

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and durability, ensuring long service life.
- **25 mm Length:** Suitable for applications requiring compact and efficient design.
- **30.05 mm Outside Diameter:** Ensures a precise fit for enhanced stability and performance.
- **24.98 mm Shaft Diameter Compatibility:** Provides optimal alignment and reduces vibration during operation.

RS PRO 25 mm Sintered Bronze Plain Bearing

RS Stock No: 528-014

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

Product Description

This RS PRO sintered bronze plain bearing is designed for efficient and reliable performance in various industrial applications. It provides smooth operation and reduces friction between moving parts, making it ideal for machinery that requires consistent and low-maintenance operation.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	24.98 mm

Mechanical Specifications

Length	25 mm
Material	Sintered Bronze
Outside Diameter	30.05 mm
