

# Ferrite Block Magnet

## Features

- Good resistance to demagnetization
- Excellent corrosion resistance, very hard and brittle
- No surface treatments are required
- Can be used in motors, magnetic couplings, for sensing, loudspeakers, holding-magnet systems, crafts, magnetic therapy, novelties, and toys

## Specification

Material	Ferrite Magnet			
Magnet Type	Block			
Grade	Y30			
Magnetized Direction	Through thickness			
Part No.	Length	Width	Thickness	Net weight (g/pcs)
RND 610-00893	13 mm	10 mm	5 mm	3.1
RND 610-00894	20 mm	10 mm	5 mm	4.8
