GD1001 Powder Free Latex 1.5AQL

The Powder-Free Latex examination glove provides excellent protection alongside superior touch and feel.

FEATURES

This glove, made from natural latex, has been manufactured and designed to provide you with maximum dexterity, sensitivity and comfort, thus giving you a near skin-like touch, without sacrificing the protection it offers you from a variety of substances. The textured fingertips provide you with extra grip and the innovative production technology used in the manufacturing process allows for ease of donning without the need for powder. All Latex products are manufactured in accordance with FDA, ASTM or CE standards

- Dextrous, sensitive and comfortable for extended use.
- Excellent wearer comfort through high-quality natural latex that fits the hand perfectly.
- Rolled cuff provides added protection and additional strength at the wrist and prevents liquid rollback.
- Textured fingertips for improved grip.
- Polymer Coating.
- Sizes S,M,L,XL
