

# Fas-Trac® III Suspensions

For all V-Gard industrial safety helmet models

*Fas-Trac III ratchet suspensions designed for MSA V-Gard® industrial safety helmets.*

*Extensive customer research shows the Fas-Trac III suspension was preferred by most users over what they were currently wearing because it improved helmet comfort, retention and stability whilst being easy to use with or without gloves.*

Fas-Trac III suspensions can be ordered pre-fitted on any V-Gard safety helmet or ordered as spares (see matrix below). For simple hygiene or on user inspection, suspensions should be changed regularly.

Two different sweatband options are available depending on application or preference: sewn in PVC perforated wipeable or sweat-wicking replaceable foam.

## MSA suspensions general features and benefits

- Overhead straps made of woven polyester providing high comfort and long term, consistent shock absorption performance
- Ensures consistent performance and comfort level even under the influence of moisture or low temperatures
- Sophisticated 4 point attachment: good positioning, stability and better air circulation
- Ideal positioning of the harness through height and length adjustment: perfect for use with face masks
- Self-adjusting textile crown straps for fast height adjustment and comfortable fit

## MSA Fas-Trac III suspensions features and benefits

- 1 • BALANCE & STABILITY:**
  - Lower nape strap improves retention: Helmets stay on when leaning over
  - Adjusts for a custom fit to the back of the head
- 2 • HEADBAND COMFORT:**
  - The comfort pad by separating the ratchet from the head, cradles the head increasing comfort and cooling airflow
  - Prevents hair from getting pulled
- 3 • EASE OF USE:**
  - Ratchet offers smooth rotation: reduced effort to turn
  - Easy grip knob adjustable even with gloves on
- 4 • ADJUSTABILITY:**
  - Three levels of nape height adjustment giving superior nape fit
  - Avoids interference with other PPE such as ear muffs
- 5 • SWEATBAND COMFORT:**
  - Largest sweatband surface area on the market covers more of the headband and user's forehead for increased comfort
  - 2 different sweatband options: sewn in **PVC perforated wipeable** or **sweat-wicking washable foam** (breathable fabric allows direct air permeation)
  - Replaceable foam sweatband can be attached over the existing sweatband without demounting the suspension
  - Also available Terry cotton washable sweatband that can be used over both sewn in PVC or replaceable foam sweatbands for increased user comfort
