RS PRO Spill Station with Small Lockable Cupboard

RS Stock No.: 885300

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

RS PRO Spill Station, manufactured from thick mild steel for exceptional strength and long-term durability, this spill response station provides a secure and highly organised storage solution for essential spill control equipment.

Integrated roll holders and internal compartments keep absorbent rolls, pads and socks neatly arranged and readily accessible, while the lockable lower cupboard ensures refill stock is stored securely and available when needed.

Supplied as standard with cam locks and two keys. Finished in a durable powder-coated yellow coating for enhanced corrosion resistance and high visibility, it can be quickly identified during emergency situations.

Keep spill response equipment clearly organised and immediately accessible, the station supports compliance with workplace safety regulations.
