

## FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability
- **35 mm Length:** Compact size suitable for space-constrained applications
- **35.06 mm Outside Diameter:** Ensures a precise fit in compatible housings
- **24.98 mm Shaft Diameter:** Designed for optimal performance with standard shafts

## RS PRO Sintered Bronze Plain Bearing, 35 mm Length

RS Stock No: 558-413

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational motion. With a length of 35 mm, it is ideal for use in machinery where space is limited but performance is critical. The sintered bronze material ensures durability and excellent wear resistance, making it suitable for high-load applications.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	24.98 mm

## Mechanical Specifications

Length	35 mm
Material	Sintered Bronze
Outside Diameter	35.06 mm
