

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and longevity, ensuring extended service life.
- **70.1 mm Outer Diameter:** Suitable for accommodating larger shafts, enhancing versatility in application.
- **50 mm Length:** Offers optimal support for shafts, improving stability and performance.
- **59.97 mm Shaft Diameter Compatibility:** Ensures a precise fit, reducing vibration and noise.
- **Plain Bearing Design:** Simplifies installation and maintenance, saving time and resources.

RS PRO Sintered Bronze Plain Bearing, 70.1 mm Outer Diameter

RS Stock No: 594-794

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for reliable performance in various industrial applications. With a 70.1 mm outer diameter and a 50 mm length, it is ideal for supporting rotating shafts and reducing friction. The sintered bronze material ensures durability and efficient operation, making it suitable for demanding environments.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	59.97 mm

Mechanical Specifications

Length	50 mm
Material	Sintered Bronze
Outside Diameter	70.1 mm
